QUICK START GUIDE V1.2

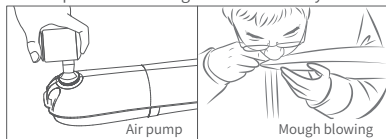

English

IMPOARTANT SAFETY INSTRUCTIONS

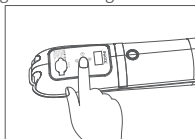

- 1.Be sure to read and understand these instructions and attentions before use.
- 2.Professional lighting is prohibited for children. Parents or caregivers must closely supervise when children are close to prevent children from personal injury due to collision with lamps or private use of lamps.
- 3.This lighting product is not an ordinary lighting fixture and cannot be used for general lighting. Anyone who has eye damage or eye sensitivity should avoid using this product.
- 4.When the lamp is lit, it is prohibited to look directly at the lamp beads under any circumstances. Strong light should be used under the guidance of a professional lighting engineer. Avoid being in a strong light environment for a long time under any circumstances. If it causes eye discomfort, please turn-off and stop using the lamp immediately and seek medical advice in time.
- 5.Do not use damaged lamps or lamp accessories until professional maintenance personnel have inspected and repaired the lamp and confirmed that the lamp is normal before use.
- 6.Do not disassemble the product self. If the product fails, it must be checked and repaired by our company or authorized maintenance personnel.
- 7.Do not place equipment near flammable and volatile solvents such as alcohol and gasoline.
- 8.Do not use accessories that are not recommended by our factory to avoid fire, electric shock or personal injury.
- 9.The safety instructions are formulated based on strict testing by our factory, and the design and specifications of the equipment are subject to change without prior notice. For the latest product information, please check the INKEE official website and view the latest electronic instruction.
- 10.The product has a built-in lithium battery. Please charge it with a dedicated charger and use it within the specified voltage and temperature range according to the correct operating instructions.
- 11.The electronic board is under warranty for one year, and the airbag is under warranty for three months. Accessories such as power cords and storage bags are not covered by this warranty.
- 12.If it is found that the equipment is repaired without authorization, the one-year warranty period of the electronic board will be cancelled and the three-month warranty of the airbag, and the maintenance will be charged.
- 13.Machine failures caused by improper operation are not covered by the warranty.

Warning

- ⚠ Please inflate before turning on the light. If you turn on the light without filling it with air, high temperature will be generated and may cause damage to the airbag.

①Inflate the light first

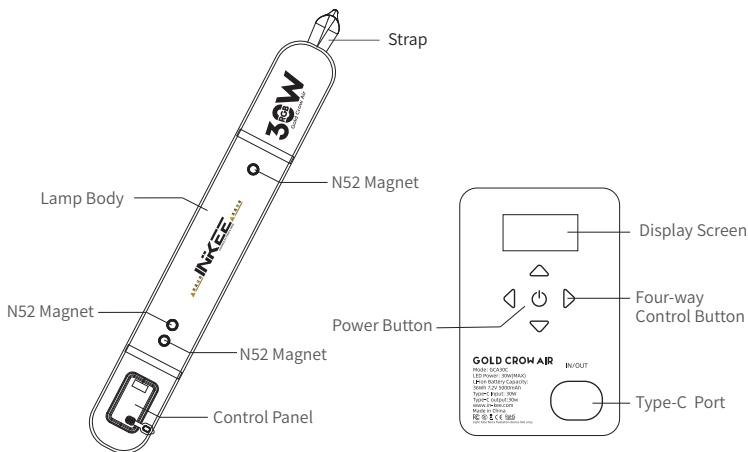

②Turn on the light after it is inflated

- ⚠ Avoid contact with sharp objects, corrosive liquids and high-temperature substances during use, which may damage the airbag.

- ⚠ Although the GOLD CROW Air 30C RGB is an airbag lamp, please avoid squeezing and falling from a high altitude to avoid damaging the airbag.
- ⚠ The TYPE-C port is protected from rain splashes.
- ⚠ When the product is working, do not touch the magnetic area (where the “High Temperature Caution” mark is printed).

Product List

Tips: The illustrations in the manual are schematic diagrams and are for reference only. Due to the continuous updating and upgrading of products, if there are any differences between the actual product and the schematic diagram, please refer to the actual product.

Air blower×1

Charging cable x1

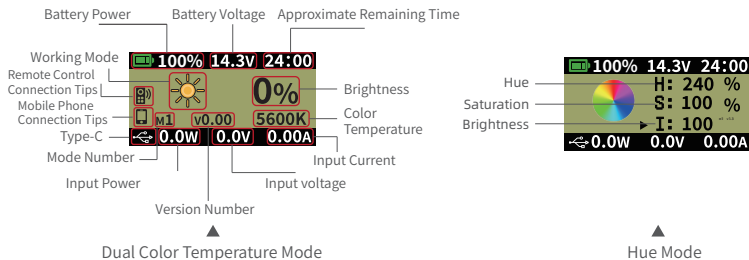

Quick start guide x1

Storage bag x1

Operation Instructions

1.1.Power on: Press and hold the power button for 1s to enter Safe mode, and press and hold the power button for 3s to exit Safe mode to successfully power on.

Power off: Press and hold the power button for 1s to power off.

2.Dual Color temperature mode setting

After turning on, directly enter the dual color temperature mode interface, use the up and down keys to adjust the brightness, and the left and right keys to adjust the color temperature.

Brightness adjustment range:0%-100%

3.Hue mode setting (HSI)

To enter the Hue mode: In the main interface: 1. Triple-click the power button to enter the Hue mode, 2. Double-click the power button to enter the mode setting, select mode M21 to enter the Hue mode interface.

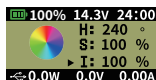

Press the up and down keys to switch H(hue)/S(-saturation)/I(brightness)

Press the left and right keys to adjust the corresponding value.

Hue adjustment range:0°-359°

Saturation adjustment range:0%-100%

Brightness adjustment range:0%-100%

4.Hue cycle mode setting

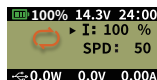

Double click the power button in the main interface to enter the mode setting, select mode M22 to enter the hue cycle mode.

Press the up and down keys to switch SPD (cycle speed)/I(brightness)

Press the left and right keys to adjust the corresponding value.

Hue adjustment range: 0%-100%

Cycle speed:0-100

6.Special effect mode settings

In the main interface, double-click the power button to enter the mode settings, and use the left and right keys to select special effects.

Light effect icon	Light effect type	Light effect icon	Light effect type
	Still on mode		Flash mode
	Flashing mode		Strobe mode
	Lightning mode		Hue mode
	Bad TV mode		Hue cycle mode
	Bad bulb mode		Police car mode
	SOS mode		Pulse mode

Product parameters

Product model:GCA 30C

Product power	30W	Control method	Light body control
Type-C Input power	30W	Waterproof level	IP6X
Color rendering index (CRI/TLCI)	Average \geq 95 Average \geq 96	Airbag material	TPU
Light effect	16 light effects	Number of magnets	3
Battery capacity	36Wh 7.2V 5000mAh	Magnet level	N52
Battery life	70min	Weight	\approx 370g
Charging time	90min	Product size	125mm*900mm

Illuminance data

Color temperature	Distance	illuminance
2700k	0.5m	2926lux/271.8fc
3300k		2990lux/277.8fc
